Interconnection

Dahua Wireless Alarm System

Highlights

Reliable RF Tech

Frequency hopping, two-way communication and AES128 encryption algorithm ensure the communication's stability and security, reaching up to 2,000m in an open space.

Multiple Networking Modes

Supports Ethernet, dual-band Wi-Fi, GPRS/3G/4G network modes, and alarm push notifications via mobile apps, SMS, or phone call.

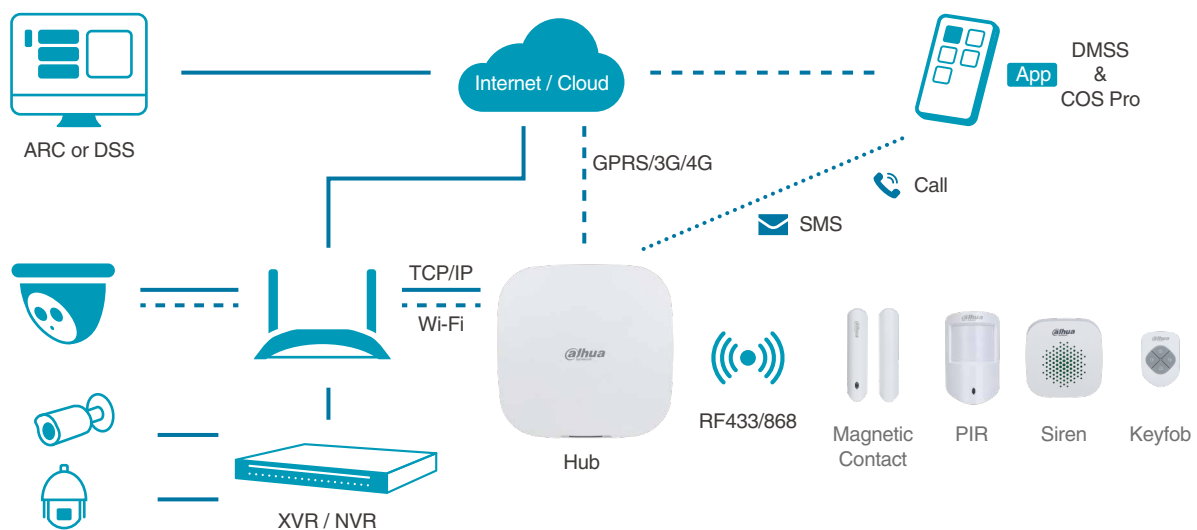

Easy App Controls

With mobile apps such as DMSS (for end users) and COS Pro (for installers), you can realize real-time reception of notifications, devices management, remote operations, and more.

Interconnection

The Hub can communicate with Dahua XVR or Dahua NVR and realize linkage as long as their networks are connected without using any software.
