

Imagine the best, done!

VESTA QallMax: the all-in-one system that is revolutionising professional security

A groundbreaking control panel, unique in the market, combining **intrusion, automation, visual verification and advanced communication** in a single device.

ALL IN ONE INNOVATION

The new **VESTA QallMax** redefines the concept of a professional control panel, integrating a **7" touch screen, 95 dB siren, 4G/Wi-Fi/IP communication module, Bluetooth and AI processing** into a single unit to deliver a unified experience of control, connectivity and visual verification.

SmartHomeSec

Full control of the alarm, automation and video surveillance through a single app. Allows notifications, live viewing and playback of event-linked recordings.

4G LTE

95dB Siren

Ethernet

Integrated AI

F1/SF1

Z-Wave

Wi-Fi

Bluetooth

Grade 2

Key advantages

- ✓ **All-in-one design** with touch screen, touch keypad and voice guidance
- ✓ **Full connectivity:** IP, Wi-Fi, 4G/LTE, Bluetooth and Z-Wave
- ✓ **AI processor** for human verification with PIRCAM
- ✓ **Integrated siren** and **GSM two-way audio**
- ✓ Compatible with **F1 / SF1 peripherals** and **VESTA Advanced Video / Home Video** cameras
- ✓ **Integration with AlarmSpace** for additional layer of Tampering protection
- ✓ **EN50131 Grade 2** certification

Technical specifications

7" touch screen with visual interface and voice guidance

Up to 1920 users (240 per area)

GSM two-way audio

SF1 and Z-Wave protocols for secure communication

8 areas configurable per installation
